r Barlow Kit

Orion StarBlast 90mm AZ Telescope & Beginner Barlow Kit

Orion StarBlast 90mm AZ Telescope & Beginner Barlow Kit

With its substantial 90mm (3.5") aperture and versatile f/6.7 optics, the StarBlast 90mm Travel Refractor is the great grab-and-go telescope you've been looking for. Not only will you get great views of the Moon and its hundreds of intriguing craters and canyons, but this compact travel telescope will also provide awesome views of comets, Jupiter's cloud bands, the four largest Jovian moons, and Saturn's amazing ring system, even from brighter urban locations.
